

CANVAS AND DENIM PATCHWORK

www.kainahandmade.com

instagram: @kaina_handmade

KAINA Handmade is a home-based business in Bandung Indonesia since 2016 and produces functional patchwork bags made of canvas and denim.

Our products are made by canvas and denim using patchwork technique, which involves combining fabric pieces into unique and appealing geometric shapes. Each product has its own philosophy that uplifts our cultural values, using high quality material, eco-friendly process and women empowerment in our local community.

This aligns with our vision and mission to create SUSTAINABLE products that provide economic benefits to the community and environmentally friendly as well.

We have frequently participate in various local and international exhibitions such as JIPremium (Indonesia-Korean exhibition) and INACRAFT. We have customers from Indonesia, Korean and other Asian and now Kaina Handmade become Mitra Ekraf of UNIQLO.

BAGS

You can find us in online platform (marketplace) such as Shopee and Tokopedia.

MERCHANDISE

We handle some corporate clients in local and global scale which based in Indonesia area. Especially for merchandises, we can produce either PATCHWORK or NON PATCHWORK adjusting our client needs.
